How to View Historic FEMA Flood Insurance Rate Maps:

It is suggested that you print these instructions so you can read along as you proceed.

1. Under Related Links, Click on **FEMA/Flood Maps**, or type http://www.msc.fema.gov/ in your browser.

2. Click on **Product Catalog** in the red menu bar at the top left corner of the page.

3. Click on **Historic Flood Maps**.

4. Enter the required information for your community.

5. If you do not know the map panel number, you should first open the Index map which is identified with an "IND" in the Item ID number.

6. The maps as they first appear will be small and it will be difficult to find your property. Click on the map to enlarge it.

7. Try to identify nearby landmarks, such as freeways and major streets.

8. Use the tool buttons on the left side of the page to zoom in on your property.
